UNITED STATES OF AMERICA,
Plaintiff,
vs.
FALLBROOK PUBLIC UTILITY
DISTRICT, et al.,
Defendants.

No. 1247-SD-C

FINDINGS OF FACT, CONCLUSIONS
OF LAW, AND INTERLOCUTORY
JUDGMENT NO. 33 PERTAINING
TO ANZA AND CAHUILLA GROUND
WATER BASINS AND CAHUILLA
AND WILSON CREEKS

FINDINGS OF FACT

ANZA GROUND WATER BASIN

1.

That in the upper northeasterly portion of the Santa Margarita River Watershed there is a ground water body herein referred to as Anza Ground Water Basin. That said ground water basin is located in general in the southeasterly portion of Riverside County and is designated as Anza Valley on United States Exhibit 278 incorporated herein by reference.

2.

That the ground waters which comprise said ground water basin are those ground waters which underlie the areas of younger and older alluvial deposits depicted on United States Exhibit 278 within Anza Valley and upstream of that line

445

1 depicted on United States Exhibit 278 in the approximate center
2 of section 29, Township 7 South, Range 3 East, S.B.B.M. That
3 the ground waters which are contained within said deposits are
4 not within a known and definite channel but are percolating
5 waters.

6 3.

7 That said ground waters consist of two parts or units,
8 one part or unit being those contained within the shallow aquifer
9 which extends to a maximum but variable depth of approximately
10 100 feet below ground surface elevation. Said shallow aquifer
11 underlies the entire area of younger and older alluvial deposits
12 within the Anza Ground Water Basin.

13 The other part or unit are those waters contained within
14 the deep aquifer. The deep aquifer is approximately one-half
15 (1/2) mile in width and approximately two (2) miles in length,
16 trending diagonally in a northwest direction from the West
17 Half ($W\frac{1}{2}$) of Northwest Quarter ($NW\frac{1}{4}$) of Section twenty-seven (27),
18 the Northeast Quarter of the Southeast Quarter ($NE\frac{1}{4}$ $SE\frac{1}{4}$); the
19 East Half of the Northeast Quarter ($E\frac{1}{2}$ $NE\frac{1}{4}$) and Northwest
20 Quarter of Northeast Quarter ($NW\frac{1}{4}$ $NE\frac{1}{4}$) of Section twenty-eight
21 (28); the East Half of the Southwest Quarter ($E\frac{1}{2}$ $SW\frac{1}{4}$); the
22 Southeast Quarter ($SE\frac{1}{4}$); the East Half of the Northwest Quarter
23 ($E\frac{1}{2}$ $NW\frac{1}{4}$); the Northwest Quarter of the Northwest Quarter
24 ($NW\frac{1}{4}$ $NW\frac{1}{4}$); the West Half of the Northeast Quarter ($W\frac{1}{2}$ $NE\frac{1}{4}$),
25 all in Section twenty-one (21), Township Seven South, Range
26 Three East; into the Southwest Quarter ($SW\frac{1}{4}$) and Southwest $\frac{1}{4}$
27 of Northwest Quarter ($SW\frac{1}{4}$ $NW\frac{1}{4}$) of Section Sixteen (16), and
28 East Half of Southeast Quarter ($E\frac{1}{2}$ of $SE\frac{1}{4}$) and South Half of
29 Northeast Quarter ($S\frac{1}{2}$ $NE\frac{1}{4}$) of Section seventeen (17); all
30 in Township Six (6) South, Range three (3) East, S.B.M. Said
31 deep aquifer is depicted in general on Hamilton Exhibit A

2.

1093

46

1 incorporated herein by reference.

2

4.

3 The shallow aquifer is composed of alluvial deposits,
4 and with the exception of the upper slope area of said ground
5 water basin, of layers of clay and silt, with the result that
6 its permeability is low and its water bearing capacity poor.
7 The ground waters within the shallow aquifer move in a general
8 southwesterly direction. At that point in section 29, Town-
9 ship 7 South, Range 3 East which marks the downstream boundary
10 of the Anza Ground Water Basin, there is a shallow bedrock
11 bench overlain by a thin layer of younger alluvial deposits
12 approximately 20 feet in depth. That a small portion of the
13 ground waters contained in the shallow aquifer of the Anza
14 Ground Water Basin pass over said bedrock bench but are in
15 fact consumed almost in their entirety by phreatophytes, and
16 particularly wire grass, or by evaporation immediately down-
17 stream from that point where said ground waters move out of
18 said shallow aquifer as found herein.

19

5.

20 That the ground waters contained within the deep
21 aquifer of the Anza Ground Water Basin are contained within
22 an ancient stream channel which is composed primarily of gravel
23 deposits and underlies said shallow aquifer primarily in the
24 sections referred to hereinabove in Finding 3. There exists
25 a fault drawn on Hamilton Exhibit A which strikes Northwest
26 to Southeast beginning about the center of Section 17, Town-
27 ship 6 South, Range 3 East, continuing through the northeast
28 corner of Section 20 and the south quarter corner of Section 21
29 to the Northeast Quarter of Southeast Quarter of Section 28,
30 all in Township 7 South, Range 3 East. The deep aquifer lies
31 immediately northeast of said fault and extends easterly

3.

1 in the upper slope area of the ground water basin and in
2 sections 4, 5, 6, north half ($N\frac{1}{2}$) of section 8 and north-
3 west quarter ($NW\frac{1}{4}$) of section 9, Township 7 South, Range 3
4 East, no clay or silt layers exist. That said waters which
5 enter the ground in those sections move in a southwesterly
6 direction, pass under the silt and clay layers in the shallow
7 aquifer and upon reaching the fault referred to in Finding 5
8 above, are contained within the gravels which lie immediately
9 east of said fault and which, as found hereinabove, contain
10 the waters which are within the deep aquifer of the Anza
11 Ground Water Basin.

12

7.

13 That primarily in section 21, Township 7 South,
14 Range 3 East, substantial numbers of wells have been drilled
15 into the gravels within the deep aquifer. That pumping from
16 these wells has extracted the ground waters from the deep
17 aquifer and they have been used for irrigation with the result
18 that some of the waters originally contained within the deep
19 aquifer have by this act of pumping and use recharged the
20 shallow aquifer. Also, as a result of the pumping of the
21 waters contained within the deep aquifer, the ground water
22 elevation of those waters contained in those gravel deposits
23 has decreased with the result that a reverse gradient has re-
24 sulted and under present conditions no ground waters con-
25 tained within the deep aquifer move out of the Santa Margarita
26 River Watershed but said ground waters are in fact contained
27 within the gravel deposits of the ancient stream channel.

28

8.

29 That the ground waters contained within the shallow
30 aquifer of the Anza Ground Water Basin add to, support and
31 contribute to the Santa Margarita River stream system.

5.

1096

dxg

1

9.

2

That the ground waters contained within the deep
3 aquifer do not add to, contribute to nor support the Santa
4 Margarita River or any tributary thereto, and are not a
5 part of said Santa Margarita River stream system.

6

10.

7

That attached hereto is Exhibit A which is a list
8 setting forth the apparent owners of the lands which comprise
9 the Anza Ground Water Basin. That attached hereto is
10 Exhibit B which designates by parcel number and legal descrip-
11 tions all lands which overlie said Anza Ground Water Basin.
12 That said Exhibit B specifically designates therein the lands
13 which overlie the deep aquifer of the Anza Ground Water Basin.

14

11.

15

That all lands described in Exhibit B have a correla-
16 tive overlying right to the use of the ground waters contained
17 within the shallow aquifer of the Anza Ground Water Basin.

18

12.

19

That all lands described in Exhibit B and designated
20 therein as overlying the deep aquifer of the Anza Ground Water
21 Basin have correlative overlying rights to the use of the
22 ground waters within the deep aquifer of that basin.

23

13.

24

Attached hereto marked Exhibit C is a compilation
25 setting forth certain factual matters such as wells and data
26 concerned therewith, irrigated and irrigable acreage and other
27 relevant factual matters which pertain to the lands described
28 in Exhibit B. The factual statements contained therein shall
29 be prima facie evidence as to such matters in any subsequent
30 proceedings before this Court in this cause. As used herein
31 prima facie evidence is that which suffices for the proof of

6.

1097

50

1 a particular fact until contradicted or overcome by other
2 evidence.

3 CAHUILLA CREEK

4 14.

5 That Cahuilla Creek (sometimes referred to as
6 Coahuilla Creek) is intermittent both as to time and place
7 and flows, except for extremely limited areas, only during
8 and immediately following periods of heavy precipitation.
9 Said creek rises on the western slope of Thomas Mountain and
10 there are several named and unnamed small tributary creeks
11 (including Hamilton Creek) which contribute to the main stream
12 of Cahuilla Creek. It is sufficient for these findings to
13 state that Cahuilla Creek proceeds across the Anza Ground
14 Water Basin in a general southwesterly direction. Said creek
15 passes over the bedrock bench in section 29, Township 7 South,
16 Range 3 East and then flows over a thin or shallow constricted
17 area of younger alluvial deposits in sections 29 and 30,
18 Township 7 South, Range 3 East, and sections 25, 26 and 27,
19 Township 7 South, Range 2 East, whereupon it enters Cahuilla
20 Valley. Said thin or shallow constricted area of younger
21 alluvial deposits is depicted on United States Exhibit 278.
22 Cahuilla Creek then proceeds across Cahuilla Valley in a
23 general southwest direction and after leaving said Valley
24 in section 31, Township 7 South, Range 2 East; it passes over
25 primarily basement complex or bedrock in section 36, Township 7
26 South, Range 1 East, proceeds across the northwest quarter (NW $\frac{1}{4}$)
27 of section 1, Township 8 South, Range 1 East and then across
28 section 2 and into the southeast quarter (SE $\frac{1}{4}$) of the south-
29 east quarter (SE $\frac{1}{4}$) of section 3, Township 8 South, Range 1 East
30 whereupon it joins Wilson Creek.

31 - - -

51

1 15.

2 Cahuilla Creek does in fact contribute to the ground
3 waters contained within the shallow aquifer of the Anza Ground
4 Water Basin and those ground waters contained within the Cahuilla
5 Ground Water Basin and the Santa Margarita River stream system.

6 16.

7 As found hereinabove in Finding 14, Cahuilla Creek
8 passes over the bedrock bench in section 29, Township 7 South,
9 Range 3 East and flows over a thin constricted area of younger
10 alluvial deposits in sections 29 and 30, Township 7 South,
11 Range 3 East and sections 25, 26 and 27 Township 7 South,
12 Range 2 East, whereupon it enters Cahuilla Valley. That the
13 ground waters contained within the thin or shallow constricted
14 younger alluvial deposits in these sections are in direct hydro-
15 logic contact with the surface flow of Cahuilla Creek when in
16 fact said surface flow exists. That ground water contained
17 within said thin or shallow constricted areas of younger alluvial
18 deposits are in fact in a known and definite channel, to wit,
19 the younger alluvial deposits, in that said younger alluvial
20 deposits are surrounded by and contained within deposits of
21 virtually impervious basement complex. Said ground waters
22 do in fact move in the identical direction as the surface flow
23 of Cahuilla Creek and are a part of that Creek.

24 Except as found hereinabove in this Finding, Cahuilla
25 Creek consists solely of those waters which flow as surface
26 waters in that the ground waters which are contained within the
27 shallow aquifer of the Anza Ground Water Basin and the ground
28 waters contained within the Cahuilla Ground Water Basin are not
29 in a known and definite channel but are percolating waters and
30 in the other reaches of Cahuilla Creek, it flows over basement
31 complex or bedrock and no ground waters exist.

8.

1099

52

1 The ground waters contained within the thin or shal-
2 low constricted area of younger alluvial deposits in sections
3 29 and 30, Township 7 South, Range 3 East and sections 25, 26
4 and 27, Township 7 South, Range 2 East and which as found here-
5 inabove, are a part of Cahuilla Creek, are of relative minor
6 amounts and do not contribute to any substantial degree to the
7 waters of the Santa Margarita River. The surface waters of
8 Cahuilla Creek throughout its course exist for practical pur-
9 poses only during periods of substantial rainfall, and there-
10 fore any riparian rights to such surface waters are of relatively
11 little value in that there is no substantial need for such
12 surface flow during the limited times that it is available.
13 Because of the illusory nature of the riparian rights to the
14 surface flow of Cahuilla Creek and the limited amounts of ground
15 water which have in this Finding been found to be a part of
16 Cahuilla Creek, this Court is not at this time making specific
17 findings as to what lands are riparian to Cahuilla Creek.

18 If in fact in the future determinations as to the
19 riparian status of lands to Cahuilla Creek are necessary, this
20 Court in the exercise of its continuing jurisdiction can and
21 will make such determinations based on these Findings of Fact,
22 and evidence to be introduced as to what land is held under one
23 chain of title and part of which abuts upon or is traversed
24 by Cahuilla Creek.'

25 CAHUILLA GROUND WATER BASIN

26

17.

27 The Cahuilla Ground Water Basin is composed of the
28 younger and older alluvial deposits which are contained within
29 Cahuilla Valley and are depicted on United States Exhibit 278.
30 The ground waters contained within the younger and older alluvial
31 deposits of Cahuilla Ground Water Basin are not in a known and

9.

1100

53

1 definite channel but do add to, contribute to and support
2 Cahuilla Creek, a tributary of the Santa Margarita River
3 stream system. That in the most westerly portion of the
4 Cahuilla Ground Water Basin there is a constricted thin
5 deposit of younger alluvium. That said constricted thin
6 younger alluvial deposit is located in the southeast quarter
7 of section 30 and the northeast quarter of section 31,
8 Township 7 South, Range 2 East, and is depicted on United
9 States Exhibit 278. That at this point there is a lip of
10 bedrock which extends almost to ground surface. The ground
11 waters contained within the Cahuilla Ground Water Basin move
12 generally in a southwesterly direction and it is only when
13 the constricted thin layer of younger alluvium which overlies
14 said bedrock lip is saturated that any of said ground waters
15 contained within the Cahuilla Ground Water Basin pass over
16 said bedrock lip and move westerly toward the Santa Margarita
17 River. That when said younger alluvial deposits which overlie
18 said bedrock lip in the southeast quarter ($SE\frac{1}{4}$) of section 30
19 and the northeast quarter ($NE\frac{1}{4}$) of section 31, Township 7
20 South, Range 2 East, are saturated, there is a flow of water
21 over said bedrock lip. That except for periods of substantial
22 rainfall the amount of water which does in fact move over said
23 lip, either on the surface or within the constricted, thin,
24 shallow alluvial deposit, is slight and is consumed almost
25 entirely within a short distance downstream by evapo-
26 transportation losses.

27

18.

28 That attached hereto is Exhibit D which is a list
29 setting forth the apparent owners of the lands which overlie
30 the Cahuilla Ground Water Basin. That attached hereto is
31 Exhibit E, which designates by parcel number and legal descrip-
tions all lands which overlie said Cahuilla Ground Water Basin.

10.

1101

54

1 19.

2 That all lands described in Exhibit E have a correla-
3 tive overlying right to the use of the ground waters contained
4 within the Cahuilla Ground Water Basin. That all ground waters
5 contained within the lands described in Exhibit E add to and
6 support the Santa Margarita River stream system.

7 20.

8 That attached hereto marked Exhibit F is a compilation
9 setting forth certain factual matters, such as wells and data
10 concerned therewith, irrigated and irrigable acreage and other
11 relevant factual matters which pertain to the lands described
12 in Exhibit E. The factual statements contained therein shall be
13 prima facie evidence as to such matters in any subsequent pro-
14 ceedings before this Court in this cause. As herein used, prima
15 facie evidence is that which suffices for the proof of a parti-
16 cular fact until contradicted or overcome by other evidence.

17 WILSON CREEK

18 21.

19 Wilson Creek is an intermittent stream both as to time
20 and place and flows, except in extremely limited areas,
21 only during or after periods of substantial inundation. Wilson
22 Creek has its headwaters primarily in the Red and Little Ca-
23 huilla Mountains. It flows across Reed Valley and proceeds
24 almost in a direct southerly direction across sections 13, 24,
25 23, 26, 35 and the southeast quarter ($SE\frac{1}{4}$) of section 34, Town-
26 ship 7 South, Range 1 East, and across the east half ($E\frac{1}{2}$) of
27 section 3, Township 8 South, Range 1 East, to that point where
28 it is joined by Cahuilla Creek. It then crosses Wilson Valley
29 in a southwesterly direction and flows generally westerly until
30 it enters what is now Vail Reservoir. Throughout its course
31 Wilson Creek traverses constricted and shallow areas of younger
alluvial deposits.

11.

1 22.

2 That all ground waters contained within the younger
3 alluvial deposits over which Wilson Creek flows are in fact
4 in direct hydrologic contact with the surface flows of Wilson
5 Creek when in fact it does exist. That said ground waters
6 contained within said limited areas of younger alluvial de-
7 posits are in a known and definite channel in that they are
8 contained within and surrounded by deposits of basement complex.
9 That the ground waters contained within said younger alluvial
10 deposits do move in the identical direction of Wilson Creek
11 and are in fact a part of Wilson Creek. Said younger alluvial
12 deposits are depicted on United States Exhibits 275 incor-
13 porated herein by reference.

14 23.

15 That except for those areas in Lancaster Valley, the
16 amounts of ground waters contained in said younger alluvial
17 deposits are limited and this Court is not at this time making
18 findings of fact specifically delineating which lands have
19 riparian rights to the surface and ground waters of Wilson
20 Creek. Findings of Fact, Conclusions of Law and Interlocutory
21 Judgment No. 40 are concerned specifically with the Aguanga
22 Ground Water Area and detailed findings of fact concerned with
23 Wilson Creek within the Aguanga Ground Water Area are set forth
24 therein. That part of Wilson Creek which is within the
25 Aguanga Ground Water Area is just downstream from that point
26 in the southeast quarter ($SE\frac{1}{4}$) of the southeast quarter ($SE\frac{1}{4}$)
27 of Section 3 Township 8 South Range 1 East where Wilson Creek
28 and Cahuilla Creeks have their point of confluence.

29 24.

30 That the smallest tracts of land held under one chain
31 of title a portion of which abut upon or are traversed by

12.

1 Wilson Creek have correlative riparian rights to the use
2 of the surface and sub-surface waters of Wilson Creek.

3 25.

4 That the waters of Wilson Creek, both surface and
5 sub-surface, are a part of the Santa Margarita River stream
6 system.

7 MISCELLANEOUS FINDINGS

8 26.

9 That all surface waters which flow over and upon any
10 of the lands within the sub-watersheds of Cahuilla and Wilson
11 Creeks are a part of the Santa Margarita River stream system.

12 27.

13 That all ground waters contained within the deposits
14 of basement complex or weathered basement complex within the
15 sub-watershed of Cahuilla and Wilson Creeks as said deposits
16 are depicted on United States Exhibits 275 and 278, are vagrant
17 local, percolating waters which do not add to, contribute to
18 or support the Santa Margarita River or any tributary thereto.

19 28.

20 That except as to ground waters contained within the
21 younger and older alluvial deposits within the shallow aquifer
22 of the Anza Ground Water Basin those contained within the
23 Cahuilla Ground Water Basin and those which are a part of
24 Cahuilla Creek and Wilson Creek, all ground waters contained
25 within the lands within the sub-watersheds of Wilson and
26 Cahuilla Creeks, are vagrant, local, percolating waters which
27 do not add to, contribute to nor support the Santa Margarita
28 River stream system.

29 29.

30 That certain lands within the sub-watersheds of Wilson
31 Creek and Cahuilla Creek are Indian Reservation Lands. That

13.

1 separate findings of fact, conclusions of law and inter-
2 locutory judgment provisions concerning said Indian lands
3 are set forth in Interlocutory Judgment No. 41.

4 30.

5 That no surface diversion or use of the waters of
6 Cahuilla or Wilson Creeks, or their tributaries or extraction
7 or use of the ground waters contained within the Anza Ground
8 Water Basin or the Cahuilla Ground Water Basin have been
9 open, notorious, adverse or hostile to any party in this cause
10 and no prescriptive rights to the use of the surface or ground
11 waters from any such diversion or extraction or use exists.

12 31.

13 That on certain of the exhibits attached to these
14 Findings of Fact there appear factual statements concerning
15 applications to appropriate specific waters of Wilson and
16 Cahuilla Creeks or their tributaries filed with the California
17 State Water Rights Board. That because said applications to
18 appropriate said waters involve relatively small amounts of
19 water, this Court has not made specific findings on each of
20 these applications nor has any party requested that such
21 findings be made. This Court finds that such factual statements
22 are true and the applicants to appropriate said waters as appear
23 on said exhibits have such water right as such stated facts war-
24 rant under and pursuant to the laws of the State of California
25 concerned with the appropriation of water.

26 Jurisdiction is reserved to enter specific findings
27 of fact and judgments as to said applications to appropriate
28 said water should any party so request, either prior or sub-
29 sequent to the entry of final judgment in this cause.

30 That in other Findings of Fact and Interlocutory
31 Judgments in this cause certain parties have been adjudged to

14.

1105

58

1 have appropriative rights to the use of the waters of the
2 Santa Margarita River and/or its tributaries.

3 That except as to those appropriative rights as
4 exist from the factual statements which appear on certain
5 exhibits attached to these Findings of Fact, and other
6 appropriative rights specifically adjudged in other Findings
7 of Fact and Interlocutory Judgments in this cause, there are
8 no appropriative rights to the use of the waters which flow
9 over and upon any of the lands within the sub-watersheds of
10 Wilson and Cahuilla Creeks or to ground waters contained
11 within any of said lands.

12 CONCLUSIONS OF LAW

13 ANZA GROUND WATER BASIN 1.

14 That all ground waters contained within the shallow
15 aquifer of the Anza Ground Water Basin add to, support and
16 contribute to the Santa Margarita River stream system.

17 2.

18 That all lands described in Exhibit B have a cor-
19 relative overlying right to the use of the ground waters con-
20 tained within the shallow aquifer of the Anza Ground Water
21 Basin.

22 3.

23 That this Court has continuing jurisdiction over the
24 use of all ground waters contained within the shallow aquifer
25 of the Anza Ground Water Basin.

26 4.

27 That all ground waters contained within the deep
28 aquifer of the Anza Ground Water Basin do not add to, support
29 nor contribute to the Santa Margarita River stream system and
30 are not a part of the Santa Margarita River or any tributary
31 thereto.

15.

1

5.

2 That the owners of all lands described in Exhibit B
3 and designated therein as overlying the deep aquifer of the
4 Anza Ground Water Basin have correlative overlying rights
5 to the use of the ground waters contained within the deep
6 aquifer of that Basin.

7 CAHUILLA CREEK

8

6.

9 Both the surface and subsurface waters of Cahuilla
10 Creek add to, contribute to and support the Santa Margarita
11 River stream system and the use of said waters is subject to
12 the continuing jurisdiction of this Court.

13

7.

14 Lands riparian to Cahuilla Creek have not been
15 defined in these Findings of Fact but this Court reserves
16 jurisdiction to enter such findings either before or after
17 the entry of final judgment in this cause.

18 CAHUILLA GROUND WATER BASIN

19

8.

20 All ground waters contained within the younger and
21 older alluvial deposits which comprise the Cahuilla Ground
22 Water Basin add to, contribute to and support the Santa Mar-
23 garita River stream system and the use of said waters is sub-
24 ject to the continuing jurisdiction of this Court.

25

9.

26 That all lands described on Exhibit E have a cor-
27 relative overlying right to the use of the ground waters con-
28 tained within the Cahuilla Ground Water Basin.

29 WILSON CREEK

10.

30 Both the surface and sub-surface waters of Wilson
31 Creek are a part of the Santa Margarita River stream system

16.

1 and the use of said waters is subject to the continuing
2 jurisdiction of this Court.

3 11.

4 That no findings have been made in these Findings
5 of Fact specifically delineating those lands riparian to
6 Wilson Creek. Jurisdiction is reserved to enter said
7 findings at any time either before or after entry of
8 final judgment in this cause should the need for said
9 findings occur.

10 12.

11 That detailed findings of fact, conclusions of law
12 and interlocutory judgment provisions have been entered
13 concerning that portion of Wilson Creek which is within the
14 Aguanga Ground Water Area (Interlocutory Judgment No. 40).

15

16

17

18 MISCELLANEOUS CONCLUSIONS OF LAW

19 13.

20 That all surface waters which flow over and upon
21 any of the lands within the sub-watersheds of Cahuilla and
22 Wilson Creeks as said sub-watersheds are depicted on United
23 States Exhibits 275 and 278 are a part of the Santa Margarita
24 River stream system and the use of said waters is subject to
25 the continuing jurisdiction of this Court.

26 14.

27 That all ground waters contained within the deposits
28 of basement complex or weathered basement complex within the
29 sub-watersheds of Cahuilla and Wilson Creeks as said deposits

30 - - -

31 - - -

17.

1 are depicted on United States Exhibits 275 and 278, are
2 vagrant, local, percolating waters which do not add to,
3 contribute to nor support the Santa Margarita River or any
4 tributary thereto, and the use of said waters is not subject
5 to the continuing jurisdiction of this Court.

6 15.

7 That except as to ground waters contained within the
8 shallow aquifer of the Anza Ground Water Basin and ground
9 waters contained within the Cahuilla Ground Water Basin, and
10 the waters of Cahuilla and Wilson Creeks, all ground waters
11 contained within the lands within the sub-watersheds of Wilson
12 and Cahuilla Creeks are vagrant, local, percolating waters
13 which do not add to, contribute to nor support the Santa Mar-
14 garita River stream system.

15 16.

16 That no prescriptive right to the use of the waers
17 of Cahuilla Creek or Wilson Creek or their tributaries or to
18 the use of waters contained within the Cahuilla Ground Water
19 Basin or the shallow aquifer of the Anza Ground Water Basin
20 exists.

21 17.

22 That except as provided in Finding of Fact 31 herein
23 there are no appropriative rights to the use of the waters
24 which flow over and upon or are contained within any lands
25 within the sub-watersheds of Wilson and Cahuilla Creeks.

26 18.

27 Specific Conclusions of Law concerned with the rights
28 to the use of the waters subject to this Interlocutory Judgment
29 upon Indian Reservation lands are set forth in Interlocutory
30 Judgment No. 41.

31 - - - -

18.

1 INTERLOCUTORY JUDGMENT

2 ANZA GROUND WATER BASIN

3 1.

4 IT IS ORDERED, ADJUDGED AND DECREED that all ground
5 waters contained within the shallow aquifer of the Anza Ground
6 Water Basin add to, support and contribute to the Santa Mar-
7 garita River stream system; it is further ordered, adjudged
8 and decreed that said lands are described in Exhibit B in-
9 corporated herein by reference; that the owners of the lands
10 described in said Exhibit B have a correlative overlying right
11 to the use of the ground waters contained within the shallow
12 aquifer of the Anza Ground Water Basin; it is further ordered,
13 adjudged and decreed that this Court has continuing juris-
14 diction over the use of all of said ground waters contained
15 within the shallow aquifer of the Anza Ground Water Basin.

16 2.

17 IT IS FURTHER ORDERED, ADJUDGED AND DECREED that all
18 ground waters contained within the deep aquifer of the Anza
19 Ground Water Basin do not add to, support nor contribute to
20 the Santa Margarita River stream system and are not a part of
21 the Santa Margarita River or any tributary thereto, and that
22 this Court has no jurisdiction over the use of said waters con-
23 tained within the deep aquifer of the Anza Ground Water Basin;
24 that said lands which overlie the deep aquifer are described
25 and designated on Exhibit B, and it is ordered, adjudged and
26 decreed that all ground waters contained within said lands
27 below 100 feet in elevation from land surface are ground waters
28 contained within said deep aquifer.

29 3.

30 IT IS FURTHER ORDERED, ADJUDGED AND DECREED that the
31 rights of the owners of said lands referred to in paragraph 2

19.

1 of this Interlocutory Judgment and their heirs, successors
2 and assigns to the use of the ground waters contained within
3 the deep aquifer are forever quieted in them and against the
4 United States of America and all other parties having rights
5 to the use of the waters of the Santa Margarita River and its
6 tributaries, and their heirs, successors and assigns.

7 4.

8 IT IS FURTHER ORDERED, ADJUDGED AND DECREED that the
9 rights of the owners of said lands referred to in paragraph 2
10 of this Interlocutory Judgment and their heirs, successors
11 and assigns are forever restrained from asserting rights
12 in or to the waters of the Santa Margarita River or its
13 tributaries excepting rights to waters which in a natural
14 state would recharge the ground waters contained within the
15 deep aquifer of the Anza Ground Water Basin.

16 5.

17 IT IS FURTHER ORDERED, ADJUDGED AND DECREED that the
18 rights inter se of the owners of said lands referred to in
19 paragraph 2 of this Interlocutory Judgment to the use of the
20 ground waters contained within the deep aquifer of the Anza
21 Ground Water Basin have not been adjudged, determined or de-
22 creed in these proceedings.

23 CAHUILLA CREEK

24 6.

25 IT IS FURTHER ORDERED, ADJUDGED AND DECREED that both
26 the surface and sub-surface waters of Cahuilla Creek as deter-
27 mined in the Findings of Fact to this Interlocutory Judgment
28 add to, contribute to and support the Santa Margarita River
29 stream system and the use of said waters is subject to the
30 continuing jurisdiction of this Court.

7.

IT IS FURTHER ORDERED, ADJUDGED AND DECREED that because of the fact that the waters of Cahuilla Creek do not under present conditions, except during flood stages, contribute substantial amounts of water to the Santa Margarita River stream system downstream, no specific findings of fact have been entered at this stage specifically delineating which lands are riparian to said Cahuilla Creek. Jurisdiction is hereby expressly reserved to enter such findings of fact, conclusions of law and judgment provisions in the future, either before or after entry of final judgment in this cause, specifically delineating by description lands riparian to Cahuilla Creek or any tributary thereto.

CAHUILLA GROUND WATER BASIN

8.

IT IS FURTHER ORDERED, ADJUDGED AND DECREED that all ground waters contained within the younger and older alluvial deposits which comprise the Cahuilla Ground Water Basin add to, contribute to and support the Santa Margarita River stream system and the use of said ground waters is subject to the continuing jurisdiction of this Court; that said lands which comprise the Cahuilla Ground Water Basin are described in Exhibit E, and it is hereby ordered, adjudged and decreed that the owners of said lands described in Exhibit E have correlative overlying rights to the use of the ground waters contained within those described lands.

WILSON CREEK

9.

IT IS FURTHER ORDERED, ADJUDGED AND DECREED that the surface and sub-surface waters of Wilson Creek as determined in the Findings of Fact to this Interlocutory Judgment are a part

21.

69

1 of the Santa Margarita River stream system and all uses
2 of said waters are subject to the continuing jurisdiction of
3 this Court; no specific findings have been entered speci-
4 fically delineating by description those lands which are
5 riparian to Wilson Creek. Jurisdiction is hereby expressly
6 reserved to determine and enter said findings of fact and
7 conclusions of law and interlocutory judgment provisions
8 designating which lands are riparian to Wilson Creek either
9 prior to or after entry of final judgment in this cause.

10 10.

11 IT IS FURTHER ORDERED, ADJUDGED AND DECREED that
12 all lands riparian to Wilson Creek have a correlative riparian
13 right to the use of surface and sub-surface waters of Wilson
14 Creek; detailed findings of fact, conclusions of law and inter-
15 locutory judgment provisions have been entered which concern
16 Wilson Creek within the Aguanga Ground Water Area (see Inter-
17 locutory Judgment No. 40).

18 MISCELLANEOUS JUDGMENT PROVISIONS

19 11.

20 IT IS FURTHER ORDERED, ADJUDGED AND DECREED that all
21 surface waters which flow over and upon any of the lands within
22 the sub-watersheds of Cahuilla and Wilson Creeks as said water-
23 sheds are depicted on United States Exhibits 275 and 278, in-
24 corporated herein by reference, are a part of the Santa Mar-
25 garita River stream system and the use of said waters is sub-
26 ject to the continuing jurisdiction of this Court.

27 12.

28 IT IS FURTHER ORDERED, ADJUDGED AND DECREED that all
29 ground waters contained within the deposits of basement complex
30 and weathered basement complex within the sub-watersheds of
31 Cahuilla and Wilson Creeks as depicted on said United States

22.

1 Exhibits 275 and 278, are vagrant, local, percolating waters
2 which do not add to, contribute to nor support the Santa Mar-
3 garita River or any tributary thereto and the use of said
4 waters is not subject to the continuing jurisdiction of this
5 Court.

6 13.

7 IT IS FURTHER ORDERED, ADJUDGED AND DECREED that the
8 rights of the owners of said lands referred to in paragraph 12
9 of this Interlocutory Judgment and their heirs, successors and
10 assigns to the use of said ground waters are forever quieted
11 in them and against the United States of America and all other
12 parties having rights to the use of the waters of the Santa
13 Margarita River or its tributaries and their heirs, successors
14 and assigns.

15 14.

16 IT IS FURTHER ORDERED, ADJUDGED AND DECREED that the
17 owners of said lands referred to in paragraph 12 of the
18 Interlocutory Judgment, their heirs, successors and assigns
19 are forever restrained from asserting rights in and to the
20 waters of the Santa Margarita River or its tributaries ex-
21 cepting rights to surface waters which flow over and upon said
22 lands.

23 15.

24 IT IS FURTHER ORDERED, ADJUDGED AND DECREED that the
25 rights inter se of the owners of said lands referred to in
26 paragraph 12 of this Interlocutory Judgment to the use of the
27 underlying vagrant, local, percolating ground waters have not
28 been adjudged, determined or decreed in these proceedings.

29 16.

30 IT IS FURTHER ORDERED, ADJUDGED AND DECREED that all
31 ground waters contained within older or younger alluvial

23.

1 deposits and not contained within the shallow aquifer of the
2 Anza Ground Water Basin or the younger and older alluvial
3 deposits which comprise the Cahuilla Ground Water Basin and
4 not in the Findings of Fact to this Interlocutory Judgment
5 found to be a part of Cahuilla Creek or Wilson Creek, and
6 within the lands within the sub-watersheds of Wilson and
7 Cahuilla Creeks, are vagrant, local, percolating waters which
8 do not add to, contribute to nor support the Santa Margarita
9 River stream system and the use of said ground waters is not
10 subject to the continuing jurisdiction of this Court.

11 17.

12 IT IS FURTHER ORDERED, ADJUDGED AND DECREED that
13 the owners of said lands referred to in paragraph 16 of this
14 Interlocutory Judgment and their heirs, successors and assigns
15 are forever restrained from asserting rights in or to the
16 waters of the Santa Margarita River or its tributaries ex-
17 cepting rights to surface waters which flow over and upon
18 said lands.

19 18.

20 IT IS FURTHER ORDERED, ADJUDGED AND DECREED that the
21 rights of the owners of said lands referred to in paragraph 16
22 of this Interlocutory Judgment and their heirs, successors and
23 assigns to the use of the ground waters contained within said
24 younger and older alluvial deposits are forever quieted in
25 them and against the United States of America and all other
26 parties having rights to the use of the waters of the Santa
27 Margarita River and its tributaries, and their heirs, suc-
28 cessors and assigns.

29 19.

30 IT IS FURTHER ORDERED, ADJUDGED AND DECREED that
31 the rights inter se of the owners of said lands referred to

24.

1 in paragraph 16 of this Interlocutory Judgment to the use
2 of the underlying vagrant, local, percolating ground waters
3 have not been adjudged, determined or decreed in these
4 proceedings.

5 20.

6 IT IS FURTHER ORDERED, ADJUDGED AND DECREED that
7 there are no prescriptive rights to the use of the waters
8 of Cahuilla Creek or Wilson Creek or to their tributaries
9 or to the use of waters contained within the Cahuilla Ground
10 Water Basin or the shallow aquifer of the Anza Ground Water
11 Basin.

12 21.

13 IT IS FURTHER ORDERED, ADJUDGED AND DECREED that
14 except as may be provided in factual statements set forth
15 on the Exhibits attached to this Interlocutory Judgment or
16 specifically adjudged in other Findings of Fact and Inter-
17 locutory Judgments in this cause, there are no appropriative
18 rights to the use of any surface waters which flow over and
19 upon any of the lands within the sub-watersheds of Wilson
20 and Cahuilla Creeks or ground waters which are contained
21 within the shallow aquifer of the Anza Ground Water Basin
22 or contained within any of the younger or older alluvial
23 deposits which comprise the Cahuilla Ground Water Basin.

24 22.

25 IT IS FURTHER ORDERED, ADJUDGED AND DECREED that
26 notwithstanding any Interlocutory Judgment provisions
27 entered hereinabove, this Court does have jurisdiction over
28 the use of any waters insofar as the United States of America,
29 on behalf of any Indians, asserts rights to such waters which
30 were adjudged in Findings of Fact and Interlocutory Judg-
31 ment No. 41; it is further ordered, adjudged and decreed that

25.

1116

69

1 in any judgment provision entered hereinabove quieting
2 rights against the United States of America, the use of
3 the term 'United States of America' does not apply when the
4 United States of America asserts rights on behalf of any
5 Indians which rights were adjudged in Interlocutory Judg-
6 ment No. 41.

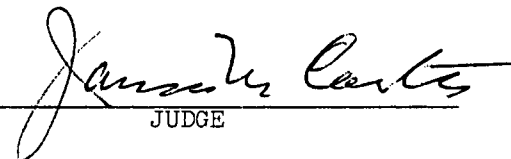

7 23.

8 IT IS FURTHER ORDERED, ADJUDGED AND DECREED, based
9 upon the decision of the United States Court of Appeals for
10 the Ninth Circuit, California v. United States 235 F.2d 647
11 that this is not a final decree but is interlocutory in
12 character and by reason of the order by this Court that all
13 parties are adverse one to the other, thus dispensing with
14 cross-pleadings, all parties to this proceeding may object
15 to these Findings of Fact, Conclusions of Law and Inter-
16 locutory Judgment and will be given full opportunity upon
17 due notice to interpose their objection prior to entry of
18 final judgment in this cause.

19 24.

20 IT IS FURTHER ORDERED, ADJUDGED AND DECREED that
21 this Interlocutory Judgment is not appealable, is not final,
22 and shall not be operative until made a part of the final
23 judgment, and this Court expressly reserves jurisdiction to
24 modify or vacate it either upon its own motion or upon motion
25 of any party to this proceeding until such time as final
26 judgment in this cause is entered.

PARCEL 73E-8-239

That por of W $\frac{1}{2}$ Govt Lot 12 (SE $\frac{1}{4}$ of SE $\frac{1}{4}$), Sec 8, T7S, R3E
shown as Par. 2 on ROS 27/29

Apparent Owners: MACY, Roy W. & Mary T.

Gross Acreage 1.2 Wells:

Irrigable Acreage 1.2

Surface Diversions:

PARCEL 73E-8-240

That por of W $\frac{1}{2}$ of Govt Lot 12 (SE $\frac{1}{4}$ of SE $\frac{1}{4}$) of Sec. 8, T7S,
R3E, shown as Par. 3 on ROS 27/29

Apparent Owners: FISHER, Jack M. & Frances

Gross Acreage 1.2 Wells:

Irrigable Acreage 1.2

Surface Diversions:

PARCEL 73E-8-241

That por of W $\frac{1}{2}$ of Govt Lot 12 (SE $\frac{1}{4}$ of SE $\frac{1}{4}$) of Sec. 8, T7S,
R3E, shown as Par 6 on ROS 27/29

Apparent Owners: FLOYD, Allen R. & Fern A.

Gross Acreage 1.1 Wells:

Irrigable Acreage 1.1

Surface Diversions:

PARCEL 73E-8-242

That por of W $\frac{1}{2}$ of Govt Lot 12 (SE $\frac{1}{4}$ of SE $\frac{1}{4}$) Sec 8, T7S, R3E shown as Par. 20 on ROS 27/29

Apparent Owner: ROGERS, Hettie J.

Gross Acreage 1.0

Wells:

Irrigable Acreage 1.0

Surface Diversions:

PARCEL 73E-8-243

That por of W $\frac{1}{2}$ of Govt Lot 12 (SE $\frac{1}{4}$ of SE $\frac{1}{4}$), Sec 8, T7S, R3E, shown as Par 22 on ROS 27/29

Apparent Owner: RICK, Faye C.

Gross Acreage 1.0

Wells:

Irrigable Acreage 1.0

Surface Diversions:

PARCEL 73E-8-244

That por of Lot 11 (SW $\frac{1}{4}$ of SE $\frac{1}{4}$), Sec 8, T7S, R3E shown as Par 1, 4, 7, 10, 13, 16 & 19 on ROS 27/29

Also, that por of Lot 12 (SE $\frac{1}{4}$ of SE $\frac{1}{4}$), sd Sec 8, shown as Par 5, 8, 9, 11, 12, 14, 15, 17, 18, 21 & 23 on ROS 27/29

Apparent Owners: HITTSON, Paul A. & Sandra W.

Gross Acreage 19.6

Wells:

Irrigable Acreage 19.6

Surface Diversions:

PARCEL 73E-8-245

E $\frac{1}{2}$ of Govt Lot 12 (SE $\frac{1}{4}$ of SE $\frac{1}{4}$), Sec 8, T7S, R3E EXC those por shown as Par 5, 7, 8 & 10 on ROS 26/99

Apparent Owners: BARBER, Robert William & Ruth Emily

Gross Acreage 17.1 Wells:

Irrigable Acreage 17.1

Surface Diversions:

PARCEL 73E-8-246

That por of E $\frac{1}{2}$ of Govt Lot 12 (SE $\frac{1}{4}$ of SE $\frac{1}{4}$), Sec 8, T7S, R3E, shown as Par 7 & 8 on ROS 26/99

Apparent Owners: HITTSON, Paul A. & Sandra W.

Gross Acreage 2.1 Wells:

Irrigable Acreage 2.1

Surface Diversions:

PARCEL 73E-8-247

That por of E $\frac{1}{2}$ of Govt Lot 12 (SE $\frac{1}{4}$ of SE $\frac{1}{4}$), Sec 8, T7S, R3E shown as Par 5 on ROS 26/99

Apparent Owners: BRINGS, Donald A. & Beryl F.

Gross Acreage 1.0 Wells:

Irrigable Acreage 1.0

Surface Diversions:

PARCEL 73E-8-248

That por of E $\frac{1}{2}$ of Govt Lot 12 (SE $\frac{1}{4}$ of SE $\frac{1}{4}$), Sec 8, T7S, R3E
shown as Par 10 on ROS 26/99

Apparent Owner: BLACK, Hazel

Gross Acreage

Wells:

Irrigable Acreage

Surface Diversions:

PARCEL 73E-9-249

E $\frac{1}{2}$ of E $\frac{1}{2}$ of Lot 1 (SW $\frac{1}{4}$ of SW $\frac{1}{4}$), Sec 9, T7S, R3E.

Apparent Owners: LARSON, Ray & Elizabeth

Gross Acreage

Wells:
