Civil No. 1247-SD-C

FINDINGS OF FACT,
CONCLUSIONS OF LAW,
AND INTERLOCUTORY
JUDGMENT NO. 34
CONCERNING TEMECULA
CREEK SUB-WATERSHED
ABOVE AGUANGA GROUND
WATER AREA

17 FINDINGS OF FACT

18 1. That upstream from the Aguanga Ground Water Area,
19 Temecula Creek flows over, upon, and through substantial areas
20 of younger alluvial deposits. That Temecula Creek and the
21 younger alluvial deposits referred to herein are depicted on
22 U.S. Exhibit 210D, incorporated herein by reference.

23 2. That the younger alluvial deposits referred to
24 in Finding No. 1 above rest upon and are confined laterally on
25 each side by deposits of basement complex. That said deposits
26 of basement complex are of considerably more compacted material
27 and are substantially less permeable than the younger alluvial
28 deposits. That the basement complex deposits, because of their
29 more compacted characteristics and limited permeability, sub-
30 stantially impede the ground waters which are contained within
31 the younger alluvial deposits from moving into the basement

12

1 complex deposits. The ground waters contained within the younger
2 alluvial deposits which underlie Temecula Creek move in the same
3 direction as the surface flow of Temecula Creek. That the
4 deposits of basement complex referred to herein do in fact form
5 the bed and banks of an underground stream and serve the same
6 function as an impermeable bed and bank of a surface stream
7 channel.

8 3. That there is surface flow of Temecula Creek in
9 certain areas above the Aguanga Ground Water Area on a perennial
10 basis. That in other areas Temecula Creek only flows as a sur-
11 face stream during or immediately after periods of precipitation.
12 That such surface flow as may exist in Temecula Creek upstream
13 from the Aguanga Ground Water Area and all ground waters con-
14 tained within those underlying younger alluvial deposits depicted
15 on U.S. Exhibit 210D are in fact a part of Temecula Creek, and
16 said ground waters within those younger alluvial deposits and
17 such surface flow of Temecula Creek as may physically exist do
18 constitute a single stream herein referred to as Temecula Creek.

19 4. That attached hereto marked Exhibit A, and
20 incorporated herein by reference, is a master alphabetical
21 index of the apparent owners of all parcels of land upstream
22 from the Aguanga Ground Water Area within the Temecula Creek
23 sub-watershed which are riparian to either Temecula Creek, Tule
24 Creek, or Chihuahua Creek, or which overlie younger or older
25 alluvial deposits which contain ground waters which add to,
26 support, or contribute to the Santa Margarita River stream
27 system, but are not a part of the flow of Temecula Creek, Tule
28 Creek, or Chihuahua Creek. That attached hereto marked Exhibit B,
29 and incorporated herein by reference, is a compilation of the legal
30 descriptions of the respective parcels of land referred to above.
31 That attached hereto marked Exhibit C, and incorporated herein by

1 reference, is a tabulation setting forth, among other things,
2 those parcels of land riparian to Temecula Creek, Tule Creek,
3 and Chihuahua Creek, or overlying ground waters not a part of
4 said creeks, but which add to and support the Santa Margarita
5 River stream system.

6 That in using Exhibits A, B, and C, the following
7 explanation is applicable: The first number refers to the
8 township; the second number refers to the range; the next
9 number or numbers refer to section or sections; and the final
10 number separated by the second number or numbers by a dash is
11 a numerical designation assigned to the parcel. Thus, for
12 example, a parcel designated as 8-1E-18-137 refers to Township
13 8, Range 1 East, section 18, parcel 137.

14 5. That all lands designated in Exhibit C as being
15 riparian to Temecula Creek have a correlative riparian right to
16 the use of the waters of Temecula Creek, and the use of such
17 waters is subject to the continuing jurisdiction of this court.

18 6. Chihuahua Creek, a tributary of Temecula Creek,
19 has its head-waters in section 11, Township 9 South, Range 3
20 East. It flows across the southeast 1/4 of section 10, Township
21 9 South, Range 3 East, then traverses sections 15, 16, the
22 northeastern 1/4 of section 17, and south 1/2 of section 8, all
23 in Township 9 South, Range 3 East. It then proceeds across the
24 northeast 1/4 of section 7, Township 9 South, Range 3 East, flows
25 over section 6, Township 9 South, Range 3 East, and then flows
26 across section 1, the southeast 1/4 of section 2, sections 11,
27 10, 9, 16, the southeast 1/4 of section 8, and traverses section
28 17 to its point of confluence with Temecula Creek in the north-
29 east 1/4 of section 16, all in Township 9 South, Range 2 East.

30 7. That in the southeasterly portion of the area
31 upstream from the Aguanga ground water area within the Temecula

1 Creek sub-watershed, as depicted on U.S. Exhibit 210D, and
2 primarily in sections 15, 16, 17, 8, 9, and 10, Township 9 South,
3 Range 3 East, there is an area of younger and older alluvial
4 deposits which is traversed in part by Chihuahua Creek. These
5 younger and older alluvial deposits are shallow in depth and
6 the ground waters, if any, contained in these younger and older
7 alluvial deposits do not add to, contribute to, or support the
8 Santa Margarita River stream system.

9 8. As depicted on U.S. Exhibit 210D, there is an
10 area of younger alluvial deposits located in sections 11, 10,
11 15, 16, 9, 8, and 17, all in Township 9 South, Range 2 East,
12 over which Chihuahua Creek flows. These younger alluvial
13 deposits rest upon and are confined laterally on each side by
14 deposits of basement complex. Said deposits of basement complex
15 are of considerably more compacted material and are substantially
16 impermeable as contrasted to the younger alluvial deposits. The
17 basement complex deposits, because of their compacted character-
18 istics and limited permeability substantially impede the ground
19 waters which are contained within the younger alluvial deposits
20 from moving into the basement complex deposits. The ground waters
21 contained within those younger alluvial deposits which underlie
22 Chihuahua Creek in the above sections move in the same direction
23 as the surface flow of Chihuahua Creek. That the deposits of
24 basement complex referred to herein do in fact form the bed and
25 banks of an underground stream and serve the same function as a
26 semi-permeable bed and bank of a surface stream channel.

27 9. That such surface flow as may exist in Chihuahua
28 Creek, and all ground waters contained within the younger alluvial
29 deposits referred to in Finding No. 8 above, are in fact a part
30 of Chihuahua Creek, and said ground waters within said alluvial
31 desopits and said surface flows of Chihuahua Creek as may

1 physically exist, do constitute a single stream herein referred
2 to as Chihuahua Creek.

3 10. That all lands designated in Exhibit C as being
4 riparian to Chihuahua Creek have a correlative riparian right
5 to the use of the waters of Chihuahua Creek, and the use of
6 such waters is subject to the continuing jurisdiction of this
7 Court.

8 11. Tule Creek, a tributary of Temecula Creek, is
9 depicted on U.S. Exhibit 210D. It has its head-waters primarily
10 in sections 18 and 19, Township 8 South, Range 3 East. Tule
11 Creek flows in a generally westerly direction across sections
12 24, 23, 22, 21, 20, and 19, all in Township 8 South, Range 2
13 East. It then traverses over sections 24 and 23, Township 8
14 South, Range 1 East; then flows in a general southerly direction
15 across section 26 to its point of confluence with Temecula Creek
16 in section 34, Township 8 South, Range 1 East. That in various
17 areas, Tule Creek flows over and upon younger alluvial deposits;
18 that said younger alluvial deposits are depicted on U.S. Exhibit
19 210D. That the younger alluvial deposits rest upon and are con-
20 fined laterally on each side by deposits of basement complex.
21 The deposits of basement complex are of considerably more com-
22 pacted material and are substantially less permeable than the
23 younger alluvial deposits. The basement complex deposits, because
24 of their more compacted characteristics and limited permeability,
25 substantially impede the ground waters contained within the
26 younger alluvial deposits which underlie Tule Creek from moving
27 into the basement complex deposits. The ground waters contained
28 within those younger alluvial deposits move in the same direction
29 as the surface flow of Tule Creek. The deposits of basement com-
30 plex referred to herein do in fact form the bed and banks of an
31 underground stream and serve the same function as an impermeable

1 bed and bank of a surface stream channel.

2 12. That such surface flow as may exist in Tule
3 Creek and all ground waters contained within the younger alluvial
4 deposits referred to in Finding No. 11 above, are in fact a part
5 of Tule Creek, and said ground water within said alluvial
6 deposits and such surface flow of Tule Creek, as may physically
7 exist, do constitute a single stream herein referred to as Tule
8 Creek.

9 13. That all lands designated in Exhibit C as being
10 riparian to Tule Creek have a correlative riparian right to the
11 use of the waters of Tule Creek and the use of such waters is
12 subject to the continuing jurisdiction of this Court.

13 14. In the Temecula Creek sub-watershed upstream from
14 the Aguanga Ground Water Area, there are limited areas of younger
15 alluvial deposits or older alluvial deposits which contain ground
16 waters which are not a part of a stream. Said ground waters do
17 in fact, however, add to, contribute to, and support the Santa
18 Margarita River stream system. These older alluvial deposits
19 and younger alluvial deposits are depicted on U.S. Exhibit 210D,
20 and are located in section 6, Township 9 South, Range 2 East,
21 the south 1/4 of section 31, Township 8 South, Range 2 East, the
22 lower portion of section 36, Township 8 South, Range 1 East, the
23 north 1/2 of section 1, Township 9 South, Range 1 East, and in
24 sections 23 and 22 and the East 1/2 of section 21, Township 9
25 South, Range 2 East.

26 15. That those lands which contain ground waters
27 referred to in Finding No. 14 above, are specifically described
28 in Exhibit B and designated in Exhibit C, and the owners of said
29 lands have a correlative overlying right to the use of such
30 ground waters. The use of those ground waters is subject to
31 the continuing jurisdiction of this Court.

1 16. That while it is known, certain, and definite
2 that the younger alluvial deposits referred to in these findings
3 rest upon basement complex deposits, the exact depth of said
4 younger alluvial deposits to contact with basement complex is
5 not known. That it is impossible based on the evidence intro-
6 duced in this record to enter a finding determining the depth
7 of the younger alluvial deposits throughout this area of the
8 Temecula Creek sub-watershed upstream from the Aguanga Ground
9 Water Area. As this Court will keep continuing jurisdiction of
10 this cause, jurisdiction is reserved to determine such fact in
11 the event it becomes necessary to do so in any particular factual
12 situation which might arise in the future.

13 17. That although the contact line on the surface
14 between the younger alluvial deposits and the basement complex
15 deposits or older alluvial deposits has not been determined with
16 absolute exactness, the determination of such contact line was
17 sufficient for the United States of America to prepare maps and
18 exhibits showing said contact lines and said contact lines, as
19 established by said maps and exhibits prepared by the United
20 States of America, and specifically U.S. Exhibit 210D, have been
21 accepted by this Court as being the contact lines on the surface
22 between the younger alluvial deposits and basement complex deposits
23 and older alluvial deposits.

24 18. That within the area depicted on U.S. Exhibit 210D
25 upstream from the Aguanga Ground Water Area and within the Teme-
26 cula Creek sub-watershed, there are numerous minor surface
27 streams which in the main flow over deposits of basement complex.
28 That in most instances there is no perennial flow in said surface
29 streams and the only waters which would exist would be those
30 which flow during or immediately after periods of precipitation.
31 That no party to this case has requested findings designating

1 which lands are riparian to the minor streams of the category
2 discussed in this finding. That this Court reserves jurisdiction
3 to make such findings should any party request them, either prior
4 to or after the entry of final judgment in this cause.

5 19. All surface waters which flow over or upon any
6 of the lands within the Temecula Creek sub-watershed are a part
7 of the Santa Margarita River stream system, and the use of these
8 waters, is subject to the continuing jurisdiction of this Court.

9 20. That no diversion or use of either the surface or
10 ground waters within the Temecula Creek sub-watershed upstream
11 from the Aguanga Ground Water Area has been open, notorious,
12 adverse, or hostile to any party in this cause and no prescrip-
13 tive right to the use of these surface or ground waters from any
14 diversion or extraction within said area exists.

15 21. That State of California Exhibit A-S, which sets
16 forth the status of appropriative right applications, permits,
17 and licenses on file with the California State Water Rights Board
18 to the use of the waters of the Santa Margarita River stream
19 system is incorporated herein by reference. That as indicated
20 on this California Exhibit A-S, there are certain appropriative
21 rights to the use of waters within the Temecula Creek sub-watershed
22 above the Aguanga Ground Water Area. That to the extent that any
23 waters are the subject of appropriative rights within the Temecula
24 Creek sub-watershed above the Aguanga Ground Water Area, as set
25 forth on said California Exhibit A-S, the use of said waters
26 under said appropriative rights to the extent permitted pursuant
27 to California law, is herein determined to be valid. That the
28 use of the waters subject to such appropriative rights is subject
29 to prior vested rights and the continuing jurisdiction of this
30 Court and to the extent applicable pursuant to California law,
31 the jurisdiction of the California State Water Rights Board.

1 That these rights are not set forth specifically herein, but can
2 be readily ascertained by reference to California Exhibit A-S.

3 22. That except as expressly found in Finding No. 21,
4 and as expressly adjudged in other interlocutory judgments in
5 this case, there are no appropriative rights to the use of the
6 waters of the Santa Margarita River stream system within the
7 Temecula Creek sub-watershed above the Aguanga Ground Water Area.

8 23. That on Exhibit C there appears in addition to the
9 property descriptions certain statements concerned with wells,
10 surface diversions, apparent ownerships, gross acreages, irrigable
11 acreages, irrigated acreages, and water duty. The factual state-
12 ments contained in Exhibit C, which pertain to wells and surface
13 diversions, are true as of the date of this interlocutory judgment.
14 The factual statements in Exhibit C which pertain to apparent
15 ownerships are set forth for convenience only and are not neces-
16 sarily correct, and are not intended to be probative to the issue
17 of ownership of any real property described in any exhibit. The
18 factual statements contained in Exhibit C, which pertain to gross
19 acreages, irrigable acreages, irrigated acreages, and water duty,
20 shall be prima facie evidence in any subsequent proceeding before
21 this Court in this cause. As used herein, prima facie evidence
22 is that which shall suffice for the proof of a particular fact
23 until contradicted or overcome by other evidence.

24 24. That within the Temecula Creek sub-watershed above
25 the Aguanga Ground Water Area, there are lands which comprise in
26 part the Cleveland National Forest, and also some lands withdrawn
27 from the public domain by the United States of America. These
28 Findings of Fact and this Interlocutory Judgment No. 34 do not
29 pertain to the rights to the use of water on said lands, as other
30 findings of fact and interlocutory judgment provisions will be
31 entered concerning them.

1 25. That the issue of apportionment has not been
2 presented and this Court has taken no evidence directed to
3 establishing whether the use of any waters herein determined
4 to be subject to the continuing jurisdiction of this Court are
5 reasonable or unreasonable as to the amount of water used in the
6 light or correlative rights which may exist as to such waters,
7 and this issue is left open, is not decided herein, and shall
8 be litigated by this Court if and when in the future it becomes
9 necessary to do so.

10 CONCLUSIONS OF LAW

11 1. That all lands designated in Exhibit C as being
12 riparian to Temecula Creek have a correlative riparian right to
13 the use of the waters of Temecula Creek.

14 2. That all lands designated in Exhibit C as being
15 riparian to Chihuahua Creek have a correlative riparian right
16 to the use of the waters of Chihuahua Creek.

17 3. That all lands designated in Exhibit C as being
18 riparian to Tule Creek have a correlative riparian right to the
19 use of the waters of Tule Creek.

20 4. That all ground waters contained within the younger
21 or older alluvial deposits on the lands referred to in Finding
22 of Fact No. 14, which lands are designated and set forth in
23 Exhibit C, have a correlative overlying right to the use of the
24 ground waters contained within those younger or older alluvial
25 deposits. The use of those ground waters is subject to the
26 continuing jurisdiction of this Court.

27 5. That the ground waters, if any, contained within
28 the lands referred to in Finding of Fact No. 7 do not add to,
29 contribute to, or support the Santa Margarita River stream system.

30 6. Both the surface and sub-surface waters of Temecula
31 Creek, Chihuahua Creek, and Tule Creek, add to, contribute to,

1 and support the Santa Margarita River stream system, and the
2 use of said waters is subject to the continuing jurisdiction
3 of this Court.

4 7. That all surface waters which flow over and upon
5 any of the lands within the Temecula Creek sub-watershed are a
6 part of the Santa Margarita River stream system, and the use of
7 such waters is subject to the continuing jurisdiction of this
8 Court.

9 8. There are no prescriptive rights to the use of the
10 waters of Temecula Creek, Chihuahua Creek, Tule Creek, or their
11 tributaries, on any lands within the sub-watershed of Temecula
12 Creek. That no prescriptive right to the use of any ground
13 waters within the Temecula Creek sub-watershed above the Aguanga
14 Ground Water Area exists.

15 9. That except as provided in Finding of Fact No. 21,
16 there are no appropriative rights to the use of the waters of
17 Santa Margarita River stream system within the Temecula Creek
18 sub-watershed above the Aguanga Ground Water Area.

19 INTERLOCUTORY JUDGMENT

20 1. IT IS ORDERED, ADJUDGED AND DECREED that all ground
21 waters contained within the lands referred to in Finding of Fact
22 No. 7 are not a part of the Santa Margarita River or any tribu-
23 tary thereto, and this Court has no jurisdiction over the use
24 of any ground waters contained within those lands.

25 2. IT IS FURTHER ORDERED, ADJUDGED AND DECREED that
26 the rights of the owners of said lands referred to in paragraph
27 1 of this Interlocutory Judgment, and their heirs, successors,
28 and assigns to the use of the ground waters contained within
29 those lands are forever quieted in them and against the United
30 States of America and all other parties having rights to the use
31 of the waters of the Santa Margarita River or its tributaries

1 and their heirs, successors and assigns.

2 3. IT IS FURTHER ORDERED, ADJUDGED AND DECREED that
3 the owners of those lands referred to in paragraph 1 of this
4 Interlocutory Judgment, and their heirs, successors, and assigns
5 are forever restrained from asserting rights in or to the waters
6 of the Santa Margarita River or its tributaries, excepting
7 rights to surface waters which flow over and upon those lands.

8 4. IT IS FURTHER ORDERED, ADJUDGED AND DECREED that
9 the rights inter se of the owners of those lands referred to in
10 paragraph 1 of this Interlocutory Judgment to the use of the
11 ground waters contained therein have not been adjudged, deter-
12 mined, or decreed in these proceedings.

13 5. IT IS FURTHER ORDERED, ADJUDGED AND DECREED that
14 both the surface and sub-surface waters of Temecula Creek, as
15 determined in the findings of fact to this Interlocutory Judgment,
16 add to, contribute to, and support the Santa Margarita River
17 stream system and the use of those waters is subject to the
18 continuing jurisdiction of this Court.

19 6. IT IS FURTHER ORDERED, ADJUDGED AND DECREED that
20 both the surface and sub-surface waters of Chihuahua Creek, as
21 determined in the findings of fact to this Interlocutory Judgment,
22 add to, contribute to, and support the Santa Margarita River
23 stream system, and the use of those waters is subject to the
24 continuing jurisdiction of this Court.

25 7. IT IS FURTHER ORDERED, ADJUDGED AND DECREED that
26 both the surface and sub-surface waters of Tule Creek, as deter-
27 mined in the findings of fact to this Interlocutory Judgment,
28 add to, contribute to, and support the Santa Margarita River
29 stream system, and the use of those waters is subject to the
30 continuing jurisdiction of this Court.

31 8. IT IS FURTHER ORDERED, ADJUDGED AND DECREED that

1 all surface waters which flow over and upon any of the lands
2 within the sub-watershed of Temecula Creek upstream from the
3 Aguanga Ground Water Area are a part of the Santa Margarita
4 River stream system, and the use of those waters is subject to
5 the continuing jurisdiction of this Court.

6 9. IT IS FURTHER ORDERED, ADJUDGED AND DECREED that
7 all ground waters contained within the older or younger alluvial
8 deposits on the lands referred to in Finding of Fact No. 14, are
9 not a part of the sub-surface flow of any stream, but that said
10 ground waters add to, contribute to, and support the Santa
11 Margarita River stream system, and the use of those ground
12 waters is subject to the continuing jurisdiction of this Court.

13 10. IT IS FURTHER ORDERED, ADJUDGED AND DECREED that
14 the owners of the lands referred to in Finding of Fact No. 14,
15 which lands are specifically set forth in Exhibit C, attached to
16 this judgment and made a part hereof by reference, have a cor-
17 relative overlying right to the use of all ground waters con-
18 tained within the younger or older alluvial deposits on those
19 lands.

20 11. IT IS FURTHER ORDERED, ADJUDGED AND DECREED that
21 the owners of the lands designated as riparian to Temecula Creek
22 in Exhibit C have a correlative riparian right to the use of the
23 sub-surface and surface waters of Temecula Creek.

24 12. IT IS FURTHER ORDERED, ADJUDGED AND DECREED that
25 the owners of the lands designated as riparian to Chihuahua Creek
26 in Exhibit C have a correlative riparian right to the use of the
27 sub-surface and surface waters of Chihuahua Creek.

28 13. IT IS FURTHER ORDERED, ADJUDGED AND DECREED that
29 the owners of the lands designated as riparian to Tule Creek in
30 Exhibit C have a correlative riparian right to the use of the
31 sub-surface and surface waters of Tule Creek.

1 14. IT IS FURTHER ORDERED, ADJUDGED AND DECREED that
2 there are no prescriptive rights to the use of the waters of
3 Temecula Creek, Chihuahua Creek, or Tule Creek, or their tribu-
4 taries, on any lands within the sub-watershed of Temecula Creek;
5 it is further ordered, adjudged and decreed that there are no
6 prescriptive rights to the use of any ground waters contained
7 within the Temecula Creek sub-watershed on any lands therein.

8 15. IT IS FURTHER ORDERED, ADJUDGED AND DECREED that
9 except as provided in Finding of Fact No. 21, there are no
10 appropriative rights to the use of the waters of the Santa
11 Margarita River stream system within the Temecula Creek sub-
12 watershed above the Aguanga Ground Water Area; it is further
13 ordered, adjudged and decreed that the use of the waters subject
14 to such appropriative rights as were determined to be valid in
15 Finding of Fact No. 21, is and shall be subject to prior vested
16 rights and the continuing jurisdiction of this Court and, to the
17 extent provided by California law, the continuing jurisdiction
18 of the California State Water Rights Board.

19 16. IT IS FURTHER ORDERED, ADJUDGED AND DECREED that
20 rights to the use of the waters of the Santa Margarita River
21 stream system within the Temecula Creek sub-watershed on any
22 lands which comprise the Cleveland National Forest, or lands
23 withdrawn from the public domain by the United States of America,
24 are not determined in this Interlocutory Judgment, but will be
25 adjudged in other findings of fact and interlocutory judgment
26 in this cause.

27 17. IT IS FURTHER ORDERED, ADJUDGED AND DECREED that
28 no specific findings have been entered delineating by description
29 lands which are riparian to various minor surface streams, which
30 in the main flow over deposits of basement complex in the Temecula
31 Creek sub-watershed above the Aguanga Ground Water Area.

1 Jurisdiction is hereby expressly reserved to determine and enter
2 such findings of fact, conclusions of law, and interlocutory
3 judgment provisions designating which lands are riparian to these
4 minor surface streams, should the occasion for such provisions
5 arise in the future either prior to or after entry of final
6 judgment in this cause.

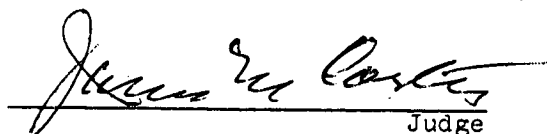

7 18. IT IS FURTHER ORDERED, ADJUDGED AND DECREED that
8 the issue of apportionment has not been presented and this Court
9 has taken no evidence directed to establishing whether the use
10 of any waters herein adjudged to be subject to the continuing
11 jurisdiction of this Court are reasonable or unreasonable as to
12 the amount of water used in the light of correlative rights which
13 may exist as to such waters, and this issue is left open, is not
14 decided herein, and shall be litigated by this Court if and when
15 in the future it becomes necessary to do so. In that event,
16 such statements as appear in Exhibit C, which pertain to gross
17 acreages, irrigable acreages, irrigated acreages, and water duty,
18 shall be prima facie evidence in such a proceeding before this
19 Court in this cause. As used herein, prima facie evidence is
20 that which shall suffice for the proof of a particular fact until
21 contradicted or overcome by other evidence.

22 19. IT IS FURTHER ORDERED, ADJUDGED AND DECREED based
23 upon the decision of the United States Court of Appeals for the
24 Ninth Circuit, California v. United States, 235 F.2d 647, that
25 this is not a final decree, but is interlocutory in character
26 and by reason of the order by this Court that all parties are
27 adverse one to the other, thus dispensing with cross-pleadings,
28 all parties to this proceeding may object to these Findings of
29 Fact, Conclusions of Law, and Interlocutory Judgment prior to
30 entry of final judgment in this cause.

31 20. IT IS FURTHER ORDERED, ADJUDGED AND DECREED that

1 this Interlocutory Judgment is not appealable, is not final,
2 and shall not be operative until made a part of the final
3 judgment, and this Court expressly reserves jurisdiction to
4 modify or vacate it either upon its own motion or upon motion
5 of any party to this proceeding until such time as final
6 judgment in this cause is entered.
